Results-driven Software Engineer (Frontend-Focused) with 4 years of experience developing and maintaining scalable, high-performance web applications using React.js, Next.js, and TypeScript. Skilled in building responsive UI components, integrating APIs, and improving product performance and usability. Adept at working in Agile environments and collaborating with cross-functional teams to deliver seamless user experiences and robust digital products. Passionate about modern web technologies, clean code, and scalable design systems.

WORK EXPERIENCE

Software Engineer

2023 – Present

HKS Manpower India Pvt Ltd, Gurugram, Haryana

- Developed and maintained dynamic web applications using Next.js and React.js, delivering scalable solutions for e-commerce, fitness, and cinema management platforms.
- Led the creation of a SaaS-based fitness platform, implementing features like scheduling, booking management, and package offerings, enhancing client workflows.
- Built and optimized e-commerce websites, improving user experience, payment gateways, and performance to drive customer engagement and conversions.
- Managed cinema content and operations, enabling seamless movie uploads, downloads, and screen assignments through a custom-built cinema management system.
- Collaborated with cross-functional teams to ensure high-quality, maintainable code, following industry best practices and agile methodologies.
- Integrated third-party APIs for scheduling, booking, and payment processing, ensuring smooth and efficient platform functionality.

Full Stack Developer

2021 – 2023

GvCloudSecure, Noida, Uttar Pradesh

- Spearheaded the development of responsive web applications using React.js, ensuring alignment with company objectives and delivering a seamless user experience.
- Collaborated with design and development teams to translate design mock-ups into interactive, responsive user interfaces.
- Contributed to backend development with Node.js, Express.js, and MongoDB, gaining exposure to server-side logic and database management.
- Solved complex technical issues by applying strong problem-solving skills, ensuring timely project delivery and high code quality.
- Participated in cross-team collaboration, fostering effective communication and innovation across departments.
- Followed agile methodologies and version control systems like Git to track progress and ensure consistent delivery.
